Login Page

Please supply color information in the RGBA or hexadecimal format. Image files can be jpg or png.

The screenshot shows the DataCandy login page. At the top, there's a dark navigation bar with the DataCandy logo on the left and a 'Français' button on the right. The background is a blurred image of a person in a cafe. A white login form is centered, containing links for 'Sign In', 'Register Now', and 'Get a Password'. The form has fields for 'Email' and 'Password' with a 'Sign In' button at the bottom. The footer includes the DataCandy logo, 'Terms and Conditions', and the phone number '514-555-1212'.

*The background image floats under the navigation bar.
Make sure nothing important, like text or people's heads, is near the top of the image.

Favicon: 16 X 16 pixels. If you do not have a favicon the web-browser default will be displayed.

Logo: 150w x 39h pixels: Company logo, appears in the navigation bar. If you do have a logo the Client Name will appear on the site.

Background Image: 1280w x 807h pixels. Can be centered and fill the screen or repeated.

Mobile Device Icon: Must be square and at least 256 X 256 pixels. Used when the member uses the Add to Home Screen feature on their mobile device. Looks and acts like a App icon, but accesses the site on a browser. If not provided iOS will use a screen shot and Android will generate a rounded square with a letter in it.

Fields Color: Color of field border.

Focused Field Color: Color of field border when cursor is in the field.

Text Color on the button.

Background Color of buttons.

Hover Color: Color of the button when the cursor is over it.

Footer Links Color: Color of the text of the links.

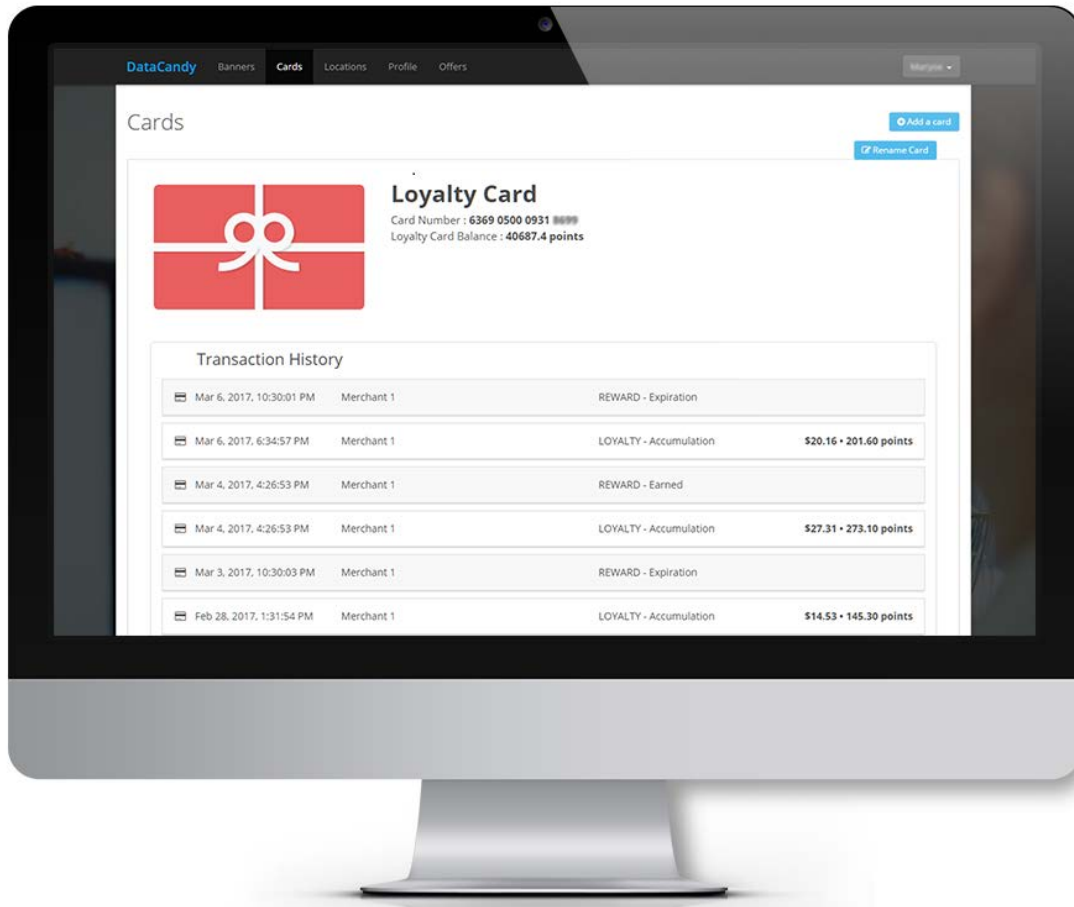

Highlighted Footer Links Color: Color of the text of a link when the cursor is over it.

Gift Card Reload Requirements

If using the gift card reload option on the member portal, **all the following information is required.**

Predefined Amounts Appear on the member portal for customers to choose from. Make sure these amounts make sense with the card balance, activation and reload minimums and maximums for the gift cards.

--	--	--	--

Merchant Enter the Datacandy name and store number of the merchant where the reload transactions will be applied.

--

From Email Provide an email address from which the reload receipt will be sent, for example cardreload@clientname.com. Emails will be sent by DataCandy appearing to come from this address. We do not need access to the actual email account.

--

If you choose an email address that does not end in DataCandy.com additional steps must be carried out by your IT department to ensure these emails will be correctly handled by the DataCandy transactional email API.

Customer Service Email Appears on the reload receipt email so customers can contact you.

--

Customer Service Phone Number Appears on the reload receipt email so customers can contact you.

--

Charges will appear as Appears on the reload receipt email. Should be the same as used for the Paysafe account.

--

Logo Appears on the reload receipt email. JPG or PNG: 264 w X 170 h pixels.

Payment Methods Select the acceptable methods of payment. Should match those in your Paysafe account.

☐ Visa ☐ MasterCard
☐ American Express
